- Software & Tools:** VS Code, Figma, Weka, Odoo, XAMPP
- AI Development Tools:** Antigravity IDE, GitHub Copilot, Cursor AI
- Professional Skills:** Leadership, Problem Solving, Critical Thinking

LANGUAGES

- English (Fluent)
- Malay (Fluent)

EXPERIENCE

- Software Engineer & Developer**
Simple Advantage Sdn. Bhd. Aug 2026 - Present
 - Developed system prototypes for PDRM & CIDB using Antigravity IDE based on system requirements.
 - Built the eSawah360 IoT structure from scratch, integrating LoRaWAN devices for agricultural monitoring & data collection.
 - Contributed to system architecture, device integration, testing, and prototyping for smart agriculture applications.
- Digital Leads Specialist**
Perodua Sales Sdn. Bhd. Apr 2026 - July 2026
 - Analysed digital lead volumes and campaign performance to support sales planning and lead-generation strategies.
 - Monitored digital campaigns and live-session performance while responding to customer enquiries in real time.
 - Collaborated with sales consultants to improve lead conversion and customer engagement.
- Internship**
Majlis Bandaraya Ipoh (MBI) Sep 2025 - Dec 2025
 - Developed three interactive dashboards for Enforcement, Licensing, and Treasury departments using API-driven data.
 - Optimised API calls and front-end code to improve system performance and reduce data-loading times.
 - Implemented Google Maps routing and geospatial analysis to identify violation hotspots and tax arrears.

ACHIEVEMENTS

- President, College Representative Committee (2024–2025)**
Led and organised 60+ programmes.
- International Student Delegation**
Represented UiTM across four countries.
- Best Paper Award (2*), ISDev 2024**
Recognised for outstanding conference research papers.
- Co-author, 3 MyCite-Indexed Articles**
Published peer-reviewed research in academic journals.
